SUMMARY

Results-driven aspiring **Data Analyst** with hands-on experience in **Python, SQL, Tableau**, and statistical analysis. Skilled in building **ETL pipelines**, performing exploratory data analysis, and translating complex datasets into actionable business insights that drive strategic decision-making.

PROJECTS

RetailRevenue Intelligence | Python, Tableau, SQL, Statistical Analysis Apr. 2026

- Analyzed **12,000+ transactions** over a 3-year period using **Python** and **Tableau** to surface retail revenue patterns
- Engineered a full **ETL pipeline** to ingest, clean, and transform raw POS data for downstream analysis
- Performed statistical hypothesis testing (**ANOVA**, correlation analysis) to identify key revenue drivers
- Designed interactive **executive dashboards** enabling real-time decision-making for business stakeholders
- Delivered margin-protection and upselling strategies with a projected **Rs. 1.55 L/year revenue impact**

Hotel Booking Cancellation & Revenue Optimization | Python, Pandas, Tableau Feb. 2026

- Analyzed **1,19,390 booking records** to design a comprehensive hotel revenue optimization framework
- Engineered features including **lead-time buckets** and **canceled-revenue metrics** to enrich the analytical dataset
- Built interactive **dashboards** to quantify financial leakage from cancellations and track revenue-recovery KPIs
- Surfaced segment- and season-specific insights directly informing **pricing strategy** and deposit-policy decisions

Capstone Responsive Website | HTML, CSS Dec. 2024

- Built a fully **responsive**, visually polished website from scratch; [live demo](#)
