SUMMARY

Motivated Data & Visual Analytics professional with hands-on experience in end-to-end data workflows — from building pipelines to delivering actionable dashboards in Tableau and Power BI. Adept at transforming raw data into clear, business-ready insights that drive informed decision-making.

TECHNICAL SKILLS

Visualization & BI Tools: Tableau, Looker Studio, Google Sheets Dashboard

Languages & Libraries: Python, SQL, Pandas, NumPy, Matplotlib, Seaborn

Analytics: Exploratory Data Analysis (EDA), KPI Development, Statistical Analysis, Data Cleaning

Tools & Platforms: Excel, Google Sheets, Jupyter Notebook, GitHub

Methodologies: Dashboard Design, Data Storytelling, Root Cause Analysis

PROJECTS

Wildlife Strike Risk Analytics Dashboard | Github

- Transformed **9,999 FAA wildlife strike records** (1990–2015) into a structured aviation safety risk intelligence framework.
- Developed KPI framework covering Damage Rate, Engine Ingestion Rate, Seasonal Risk Index, and Phase Risk Index using pivot tables and calculated fields in Google Sheets.
- Built an interactive dashboard revealing that the EN ROUTE phase carries the **highest damage probability (20.38%)** and September is the peak wildlife migration risk month.
- Delivered safety recommendations for targeted bird control, seasonal risk alerts, and snow-weather advisories to support proactive aviation decision-making.

Retail Sales & Customer Analytics Dashboard | Dashboard

- Cleaned and preprocessed a **12,575-row** retail transaction dataset using Python (Pandas) — handling missing values, type inconsistencies, and formatting issues.
- Created calculated fields in Tableau (AOV, Discount %, Day-of-Week trends) and developed KPIs: Total Revenue, Transactions, Unique Customers, and Units Sold.
- Built an interactive Tableau dashboard answering: *Which product categories, locations, and customer segments drive the most revenue and profitability?*
- Enabled data-driven decisions on pricing optimization, discount policies, and inventory allocation through visualizations covering revenue trends, payment method analysis, and location-based insights.

EDUCATION

Newton School of Technology, Rishihood University
Bachelor of Technology in Artificial Intelligence | CGPA: 6.78/10.0

Sonipat, India
2024 – 2028

Stepping Stones School
Intermediate — Class XII (CBSE)

Sonipat, India
2022 – 2023

Stepping Stones School
Matriculation — Class X (CBSE)

Sonipat, India
2019 – 2020

CERTIFICATIONS

Microsoft Data Analytics | Microsoft | Dec 2025

- Completed a beginner-level Data Analytics program covering 5+ core concepts, gaining hands-on experience in data interpretation, analytical thinking, and data-driven decision-making through structured evaluations.
